► Safe Travel (Tips for the Journey)

Take a few moments to discover how you can travel smart by being prepared for going through airport security, avoiding unnecessary delays, and contributing to the safety of all travellers.

- Label your luggage. Do not use your home address or business title. Luggage tags with flaps that hide your name and address are a smart idea. These steps will help protect your anonymity and thwart would-be thieves.
- Make an inventory of luggage contents and place it in your ticket jacket.
- Pack lightly. Travel with as little baggage as possible. Check with your airline to confirm how much you can bring.
- Limit your carry-on baggage. If you don't think you're going to need it on the flight, pack it in your checked baggage.
- Make photocopies of your photo ID and your credit cards. Leave a copy at home with someone.
- Leave a copy of contact names and your itinerary both at home and at work.
- Verify your ticket and check with the airline before you leave home to make sure that there haven't been any changes to the flight schedule.
- Be aware of airport security procedures. Call or check the web sites of the airports you are travelling from and to, or speak to your airline.
- Wear comfortable, practical and appropriate footwear and clothing — sandals, t-shirts and shorts won't keep you warm if you have to exit the plane in the cold.
- Arrive at the airport early. For international travel, arrive two to three hours before your scheduled departure time. Check with your airline to find out about check-in time allowances.

**WORK
SAFE.
LIVE
SAFE.
BE
SAFE.**
