**JOB SUMMARY**

The Equipment Operator IIB is responsible to operate a bus and transport students to and from school.

**Key and Periodic Activities:**

- Transports students to and from school on a daily basis.
- Performs a pre-trip inspection of bus to ensure that all components are operational before picking up students.
- Inspects bus for mechanical defects.
- Cleans bus which includes sweeping, mopping, seat cleaning and outside cleaning.
- Maintains fuel, oil, transmission fluid and coolant levels.
- Attends training courses, as required.

**SKILL**

**Knowledge**

**General and Specific Knowledge:**
- Highway Traffic Act
- Bus Evacuation Procedures
- Occupational Health and Safety
- School Board Policies and Procedures
- First Aid
- Defensive Driving

**Formal Education and/or Certification(s):**

**Years of Experience:**
- Minimum: Some experience in the operation of a bus

**Competencies:**
— Ability to follow basic instructions and work processes
— Ability to operate machinery
— Ability to write straightforward text to complete student conduct reports, accident reports, status reports, etc.

**Interpersonal Skills**

— A range of interpersonal skills include listening to information from other people and asking questions to get information, providing routine information and direction to students and parents regarding bus routes or pick-up times, providing care, comfort or nurturing to a student who may be sick and dealing with upset or angry parents or students.
— Communications occur with co-workers, supervisors, students, parents and teachers/principal.
— The most significant contacts are with the supervisor to receive daily work instructions, students who ride the bus and co-workers in the completion of daily activities.

**EFFORT**

**Physical Effort**

— The demands of the job occasionally results in considerable fatigue, requiring periods of rest.
— Lifting or moving objects less than 10 lbs is occasional.
— Driving a school bus on a regular basis requires sitting for extended periods of time. Climbing when performing maintenance work and walking to conduct daily inspections are also required.
— Manual or physical activities include using gross motor skills when performing inspections, adding oil, transmission fluid or coolant, cleaning the bus and operating heavy equipment such as a bus.

**Concentration**

— There is a regular requirement for **visual** concentration when driving a bus to ensure the health and safety of students and when performing pre-trip and mechanical inspections.
— **Auditory** concentration includes listening to students while driving the bus to ensure there is no inappropriate activity occurring. Listening to co-workers, parents and teachers is also required.
— **Other sensory demands** required in this work environment include smelling for anything that may be burning such as wires or smelling smoke or fumes that may be initiated by a student.
— Alertness and concentration are required when performing repetitive tasks such as driving or performing daily operational checks of bus. **Higher than normal levels of attentiveness or alertness for the health and safety of others** is required when students are boarding the bus and to report drivers that pass the bus when the lights are flashing and when driving in adverse weather conditions.
— **Time pressures and deadlines** are experienced on a regular basis when trying to meet scheduled pick-up and drop-off times of students to ensure they are at school on time. **Interruptions** and lack of control over work pace occurs when there are mechanical issues with the bus, adverse weather conditions, traffic congestion and when students are behaving inappropriately.
— **Exact results and precision** are required to ensure the bus is maintained in good condition.
### Complexity

- Work involves operating and maintaining a school bus which involves performing tasks and activities that are similar/related in terms of the skills and knowledge required and the tasks are typically repetitive and well defined.
- A typical problem is dealing with students who are behaving inappropriately and not obeying school bus rules.
- Reference material to assist in addressing problems, challenges and issues include School Board Policy, School Officials such as the Principal and Teachers and the Supervisor.

### RESPONSIBILITY

#### Accountability and Decision-Making

- Work is highly structured and must be carried out in accordance with School Board Policy; log books are maintained and there are daily inspections of the bus.
- Discretion and independence of action is exercised when determining if the bus should be taken off the road due to adverse weather conditions or mechanical problems.
- Approval is required to change bus stops or to remove a student from the bus.

#### Impact

- Work results can have a positive impact within the immediate work area, department, organization and on customers/clients/general public as well as on resources such as equipment, processes and systems, health and safety and the corporate image if students are picked-up and dropped off at school on schedule and if the bus is maintained in a safe working condition.
- Mistakes or errors such as delays in the pick-up and drop-off of students, a traffic accident or if the bus is not properly maintained can affect the health and safety of students, impact busing equipment, increase financial costs, and negatively impact the corporate image.
- Errors are typically identified and resolved within hours of problem identification. Work tasks and activities are guided by School Board Policy and a report must be filed on all incidents.

#### Development and Leadership of Others

- May provide advice and/or guidance to new employees.

### WORKING CONDITIONS

#### Environmental Working Conditions

- There is a requirement to wear a safety vest.
- The likelihood of injury or illnesses resulting from hazards in the job is limited.
- Exposed to unusual/distracting noise from the running bus and student activity, glare from the sun when driving, fumes from the diesel exhaust, wet and slippery road conditions, and adverse weather conditions.
